Opposition to the Prairie Song Reliability Project BESS

A1 and A2 zoning is the approved standard for the areas contemplated for the Prairie Song project. This zoning includes agricultural use and single family dwellings and ranch type operations. It does NOT include dangerous BESS projects. For that reason alone, this project should be denied. But beyond that, the extreme fire potential, the potential poisoning of ground water, the potential of deadly gases polluting our air will make our pristine and attractive town virtually unlivable. Property values will plummet. The reasons folks moved here will all be obliterated. Please find a uninhabited, desert area to build this monstrosity.
