## **Prairie Song Bess - Opposed**

I am opposed to construction of the Prairie Song Reliability Project BESS proposed for the Acton, California. The residents of Acton, and adjacent communities, should not be placed at the high risk posed by BESS projects. Acton, and adjacent communities, already possess a high fire hazard rating and the fire corridor created by the Angeles National Forest (which is subject to frequent wild fires). The CEC needs to meet their responsibilities to rural communities, like Acton, reject the Prairies Song BESS project, and require utilities to locate proposed projects in uninhabited areas, where they can mitigate their hazards without risk to the lives, limbs, and residences of the tax paying public.
