## **Prairie Song Project**

PLEASE DO NOT APPROVE of the project to be developed in my little town of Acton. We are in a high fire zone and these lithium ion batteries have an ongoing history all over the world of dangerous and unstable fire hazards.

A fire started from these batteries would endanger our water table, our properties and their value., people's health.

And the beauty of our small rural town with the development of storage facilities for the batteries.

If it was in your backyard you wouldnt want it. Would you?

Thank you for your serious consideration of denying this project. Money and profits gained aren't as important as people's lives.

PLEASE.
