Still OPPOSED

Good Afternoon CEC,

I felt a need to post a comment on this docket, as it has been awhile. I just want to state that the inactivity on this project docket, does not mean a decline in our continued desire and request for the denial of this project. Our opposition is still in full force. Unfortunately with an additional BESS proposed project in our immediate neighborhood, now in the application submission process, our attention was needed there as well. Literally trying to put out one fire after another. Please note that the additional proposed project I speak of (CEC Docket #26-OPT-01 Vaca Dixon Power Center Project) is also on Kilkenny Road, the street I live on, less than one mile from the Corby project, this one within City limits. These companies are attempting to surround and attack with these dangerous storage facilities. I pray you don't allow them to put our families, our properties, our communities at risk by approving these projects. Please consider the risk vs. reward and keep our lives and safety as your top priority.

Thank you,
Deanna Cole
