BESS battery storage

As an almost 50 year resident of Solano County, I am a firm NO on any BESS battery storage unit being built! Solano County is already at maximum level of population without having any further environmental impact from an industry that will suck the life out of what is left here and affect our county in the most negative ways. I will be writing further to our local and county officials regarding putting anything like this here. WE THE PEOPLE DON'T WANT THIS!
