Oppose BESS

Please do not approve any BESS applicant to be approved when site is too close to the public, freeways, city city businesses, residences, schools and hospitals.

Our City of Vacaville has adopted safety guidelines which should not be sidestepped by going thru the state to expedite a potentially unsafe and toxic site with potential to cause thermal runaway.

Please respect and work with any pending, current and future guidelines the City of Vacacille is trying to implement.

Any BESS project applications should be required to coincide with the county/city/ township's

Police, Fire and Public Works capabilities to mitigate and/or respond to emergencies.

Safety of the public, agricultural lands wildlife being utmost concern.
