# COMMUNITIES IN CHARGE

## Funding Wave 4

### Notice of Extended Application Window:

The Communities in Charge team is excited to share with applicants this **Notice of Extension to the Application Window for Funding Wave 4**. The deadline for submitting application materials will be **February 27, 2026 at 5pm PST**. This new deadline replaces the previous deadline of January 9, 2026. The Funding Wave 4 [Implementation Manual](#) includes all other details about the application requirements, and you can apply using the [online portal](#). The percentage of funds remaining from the original funding wave allocation are available on the Communities in Charge [home page](#).

Communities in Charge is funded by the California Energy Commission (CEC) to accelerate clean transportation initiatives across California. CALSTART has collaborated with the CEC on this extension to ensure that we use remaining funds to serve the strong demand for light-duty EVSE incentives for multi-family housing and adjacent sites within 1/8 of a mile.

Thank you for your ongoing interest and participation in this program. We look forward to the positive impacts your projects will deliver to communities across California!
