Opposition to Proposed BESS project

Hello ,

I am opposed to all lithium battery storage systems that are located way too close to farmland populations when there are plenty of remote locations where there's land where these facilities can be built and placed where they don't pose the risk to safety of the public. I am not opposed to battery technologies that don't have the runaway potential that these lithium battery that have been proposed to do and have shown repeatedly.

Thank you ,
Vince Cavallo
