Opposition to Vaca Dixon Power Center Project

Additional submitted attachment is included below.

Dear Commissioners.

I am concerned about the possibility of any lithium battery storage facility being considered for this area.

We have property in this area because it is safe, clean and protected AG land. Common Sense should tell anyone that approving something like this near people, homes, agriculture and I-80, and our Kaiser trauma hospital is a bad idea. We spend our entire adult lives working hard, paying bills on time, helping neighbors, investing in our communities.

That is the responsible and right thing to do.

Then we are posed with the threat of BESS. (which offers no benefit to us, only risk).

If this is allowed our property values will be 0. We could not even sell to move out for safety's sake. Anyone with common sense would not buy near this type of facility. As you might have heard has happened in Texas!

Who will reimburse us for our loss?

The 5th Amendment contains, the Takings Clause that allows the government to take private property for public use if compensated.

Also, the 5th amendment states that no person shall 'be deprived of life, liberty or property, without due process of law'. If approved this would be essentially taking our property values.

It would be irresponsible to authorize BESS to build here when Solano County has Approved an Ordinance to only allow the BESS facility's to be built in Industrial areas.

Please Deny the Vaca Dixon Power Center Project Permit!

Sincerely,

Robin Jaeckel, Vacaville Resident
