**Repeated Application for Confidential Designation  
Docket No: 25-IEPR-03**

Dear Brent:

The California Energy Commission (CEC) has received Southern California Edison's (applicant) repeated application for confidential designation, docketed February 3, 2026 (TN 268462), for the following:

- Electricity Demand Data

The applicant states that these records were previously determined by the CEC's executive director to be confidential indefinitely (24-IEPR-03, TN 262469). The applicant asserts, under penalty of perjury, that the document submitted contains information substantially similar to previously submitted information that was granted confidential designation, and all facts and circumstances relevant to the confidentiality of the information remain unchanged.

California Code of Regulations title 20, section 2505(a)(4) provides:

If an applicant is seeking a confidential designation for information that is substantially similar to information that was previously deemed confidential by the Commission pursuant to section 2508, or for which an application for confidential designation was granted by the Executive Director pursuant to subdivision (a)(3)(A) of this section, the new application need contain only a certification, executed under penalty of perjury, stating that the information submitted is substantially similar to the previously submitted information and that all the facts and circumstances relevant to confidentiality remain unchanged. An application meeting these criteria will be approved.

The applicant has met the requirements for confidential designation of the above information as a repeated application. Confidentiality is granted indefinitely, under the same terms as those in the initial letter granting confidentiality.
