ORDER NO: 26-0211-3a

STATE OF CALIFORNIA

**STATE ENERGY RESOURCES
CONSERVATION AND DEVELOPMENT COMMISSION**

IN THE MATTER OF:

**2025 Energy Code Third-Party
Compliance Software, Integrated
Environmental Solutions Virtual
Environment (IES VE) Title 24 2025
Version 1.0**

Docket No.: 24-BSTD-03

**Order to Approve the Integrated
Environmental Solutions Virtual
Environment (IES VE) Title 24 2025
Version 1.0 Alternative Calculation
Method Compliance Software
Application**

I. BACKGROUND

The Warren-Alquist State Energy Resources Conservation and Development Act, Public Resources Code sections 25000 et seq., 25402.1(b), requires the California Energy Commission (CEC) to, among other things, establish a process for certifying calculation methods for demonstrating compliance with its building energy efficiency standards.

As allowed by the 2025 Energy Code, California Code of Regulations (CCR), Title 24, Part 1, Chapter 10, Section 10-109(c)3, Integrated Environmental Solutions has submitted an application requesting the Commission approve Integrated Environmental Solutions Virtual Environment (IES VE) Title 24 2025 Version 1.0 as an alternative calculation method (ACM) to demonstrate performance compliance with the nonresidential new-construction requirements of the 2025 Energy Code.

As specified by the 2025 Energy Code, Section 10-109(c)3, ACM applications must meet the applicable application requirements of Section 10-116(b) and provide documentation demonstrating that the candidate software meets the requirements, specifications, and criteria specified in Sections 10-109(c)1A, 10-109(c)1B, 10-109(c)1C, 10-109(c)1D and 10-109(c)1E, as appropriate.

CEC staff has reviewed the IES VE Title 24 2025 Version 1.0 ACM application submitted by IES and determined that it contains the documentation, building energy modeling functionality, and aligns with the current version of the 2025 ACM Reference Manuals as required by the above sections of the 2025 Energy Code.

II. STAFF RECOMMENDATION

CEC staff has considered the IES VE Title 24 2025 Version 1.0 ACM application for the 2025 Energy Code and has concluded that it contains the applicable documentation and building energy modeling functionality and aligns with the current version of the 2025 ACM Reference Manuals as required by Sections 10-109(c)3 and 10-116(b) of the 2025 Energy Code. Therefore, staff recommends approval of IES VE Title 24 2025 Version 1.0 as an ACM to demonstrate performance compliance with the nonresidential new-construction requirements of the 2025 Energy Code.

Staff has also considered the application of CEQA to the proposed approval and concluded that the proposed action is exempt from CEQA because it can be seen with certainty that the approval of this application will not have a significant effect on the environment.

III. ENERGY COMMISSION FINDINGS

1. CCR, Title 24, Part 1, Section 10-109(c)3 requires third-party ACM compliance software be approved by the CEC through an application process.
2. IES submitted an ACM application for IES VE Title 24 2025 Version 1.0 in December 2025.
3. CCR, Title 24, Part 1, Section 10-109(c)3 requires that ACM applications include documentation demonstrating that the compliance software meets the requirements, specifications, and criteria specified in CCR, Title 24, Part 1, Sections 10-109(c)1A, 10-109(c)1B, 10-109(c)1C, 10-109(c)1D and 10-109(c)1E, as appropriate.
4. IES's IES VE Title 24 2025 Version 1.0 ACM application contained documentation which demonstrates compliance with the requirements, specifications, and criteria specified in CCR, Title 24, Part 1, Sections 10-109(c)1A, 10-109(c)1B, 10-109(c)1C, 10-109(c)1D and 10-109(c)1E for building performance compliance with the nonresidential new-construction requirements of the 2025 Energy Code.
5. CCR, Title 24, Part 1, Section 10-109(c)3 also requires that applications contain the application requirements of CCR, Title 24, Part 1, section 10-116(b).
6. CCR, Title 24, Part 1, Section 10-116(b) contains application requirements for ACM applications. The applicable requirements for the IES VE Title 24 2025 Version 1.0 ACM application include a compliance software vendor certification statement, computer runs and summary sheets as specified by the ACM Reference Manual, a user manual and changelog describing the functional and analytical capabilities of the ACM candidate compliance software, an executable of the candidate ACM compliance software, and an application fee deposit.
7. Staff evaluated the submitted application for compliance with the above applicable regulations to ensure that IES VE Title 24 2025 Version 1.0 would be compliant upon CEC approval.
8. The CEC confirms staff's recommendation and finds that the requirements of CCR, Title 24, Part 1, Sections 10-109 and 10-116 have been met. Therefore, IES VE Title 24 2025 Version 1.0 has met the requirements to be approved as a

third-party ACM used to demonstrate performance compliance with the nonresidential new-construction requirements of the 2025 Energy Code.

9. The CEC has considered and agrees with staff's CEQA findings. The proposed action is not a project because it does not impose any new requirements and, therefore, has no potential for resulting in either a direct physical or reasonably foreseeable indirect physical change in the environment. If it is considered a project, it can be seen with certainty that the approval of the applications will not have a significant effect on the environment and it is exempt under the common-sense exemption.

IV. CONCLUSION AND ORDER

The CEC hereby approves IES VE Title 24 2025 Version 1.0 as a third-party ACM for demonstrating performance compliance with the nonresidential new-construction requirements of the 2025 Energy Code.

The CEC also adopts staff's recommendation that this action is either not a project under the California Environmental Quality Act (CEQA) or, if considered a project, it is exempt from CEQA under the common-sense exemption.

The CEC also directs the executive director or their designee to take all actions reasonably necessary to make the above-referenced software available and maintain the software in good form, including but not limited to reviewing and approving updates to third-party software consistent with bug fixes, correcting calculation and analytical errors, necessary ongoing software updates, user interface changes, and other minor updates.

IT IS SO ORDERED.

CERTIFICATION

The undersigned Secretariat to the CEC does hereby certify that the foregoing is a full, true, and correct copy of an order duly and regularly adopted at a meeting of the CEC held on February 11, 2026.

RESOLUTION NO: 26-0211-03b

STATE OF CALIFORNIA

**STATE ENERGY RESOURCES
CONSERVATION AND DEVELOPMENT COMMISSION**

**RESOLUTION FINDING BUILDING ENERGY EFFICIENCY STANDARDS
CONTAINED IN THE TOWN OF CORTE MADERA ORDINANCE NO. 1048 SATISFY
STATUTORY REQUIREMENTS UNDER PUBLIC RESOURCES CODE SECTION
25402.1(h)(2)**

WHEREAS, The Town of Corte Madera adopted Ordinance No. 1048, which establishes certain locally adopted building energy efficiency standards; and

WHEREAS, Public Resources Code section 25402(a) and (b) establishes that the California Energy Commission (CEC) shall prescribe, by regulation, statewide building energy efficiency and conservation standards; and

WHEREAS, Public Resources Code section 25402.1(h)(2) provides that nothing in Public Resources Code section 25402(a) or (b) shall prohibit the enforcement of city or county building energy efficiency standards if: (1) the city or county files the basis of its determination that the standards are cost-effective with the CEC and (2) the CEC finds that the locally adopted standards will require the diminution of energy consumption levels permitted by the rules and regulations adopted pursuant to Public Resources Code section 25402(a) and (b); and

WHEREAS, California Code of Regulations, Title 24, Part 1, section 10-106 establishes a process for local governmental agencies to submit an application to the CEC for a determination that locally adopted building energy efficiency standards meet the requirements set forth in Public Resources Code section 25402.1(h)(2); and

WHEREAS, The Town of Corte Madera submitted an application to the CEC that included (1) the basis of its determination that the locally adopted energy efficiency standards contained in Ordinance No. 1048 are cost-effective and (2) documentation that the locally adopted energy efficiency standards contained in Ordinance No. 1048 will require the diminution of energy consumption levels compared to the 2025 Building Energy Efficiency Standards (Energy Code), as required by California Code of Regulations, Title 24, Part 1, section 10-106, on October 28, 2025; and

WHEREAS, The Town of Corte Madera adopted a determination at a public meeting on October 21, 2025, that the locally adopted energy efficiency standards contained in Ordinance No. 1048 are cost-effective; and

WHEREAS, CEC staff has analyzed whether the locally adopted energy efficiency standards contained in Ordinance No. 1048 will require the diminution of energy consumption levels compared to the 2025 Energy Code, and determined that it will do so; and

WHEREAS, California Code of Regulations, Title 24, Part 1, section 10-106(b)(4) requires that the local governmental agency's application include any findings, determinations, declarations, or reports, including any negative declaration or environmental impact report, required pursuant to the California Environmental Quality Act, Public Resources Code section 21000 et seq.; and

WHEREAS, The Town of Corte Madera, in its application to the CEC, submitted the California Environmental Quality Act documentation required by California Code of Regulations, Title 24, Part 1, section 10-106(b)(4); and

WHEREAS, CEC staff has considered the application of the California Environmental Quality Act (CEQA) to approval of the Town of Corte Madera's application to enforce its local energy efficiency ordinance and finds that the approval does not meet the definition of a "project" under California Code of Regulations, Title 14, section 15378(a), because the approval has no potential for resulting in either a direct physical change in the environment or a reasonably foreseeable indirect physical change in the environment; and

WHEREAS, Even if the approval was to be considered a project under CEQA, the project would either be an exempt ministerial project under California Code of Regulations, Title 14, section 15268, as the required CEC findings for approval are non-discretionary, or fall under the "common sense exemption" in California Code of Regulations, Title 14, section 15061(b)(3) because it can be seen with certainty that there is no possibility the approval of the Town of Corte Madera's application would have a significant effect on the environment; and

WHEREAS, The locally adopted energy efficiency and conservation standards application filed by the Town of Corte Madera satisfies the requirements of California Code of Regulations, Title 24, Part 1, section 10-106; and

THEREFORE, BE IT RESOLVED, that, pursuant to Public Resources Code section 25402.1(h)(2), the CEC finds the following: (1) the Town of Corte Madera has filed the basis of its determination that the locally adopted energy efficiency standards contained in Ordinance No. 1048 are cost-effective, and (2) Ordinance No. 1048 will require the diminution of energy consumption levels compared to the 2025 Energy Code; and

THEREFORE, BE IT FURTHER RESOLVED, that on the basis of the entire record before it, the CEC hereby adopts staff's finding that the approval of the Town of Corte Madera's application to enforce its local energy efficiency ordinance is not subject to CEQA because it is not a project for purposes of CEQA, or if it is, the approval is ministerial and is otherwise exempt from CEQA pursuant to the Common-Sense Exemption (Cal. Code Regs., tit 14, 15061(b)(3)) because it can be seen with certainty

that there is no possibility that the activity will have a significant effect on the environment; and

THEREFORE, BE IT FURTHER RESOLVED, that the CEC directs the Executive Director to take all actions necessary to implement this Resolution.

CERTIFICATION

The undersigned Secretariat to the CEC does hereby certify that the foregoing is a full, true, and correct copy of a resolution duly and regularly adopted at a meeting of the CEC held on February 11, 2026.

RESOLUTION NO: 26-0211-3c

STATE OF CALIFORNIA

**STATE ENERGY RESOURCES
CONSERVATION AND DEVELOPMENT COMMISSION**

RESOLUTION: Joby Aviation, Inc.

WHEREAS, on April 28, 2023, the State Energy Resources Conservation and Development Commission (CEC) and CALSTART, Inc. (CALSTART) entered into Agreement Number ZVI-22-035; and

WHEREAS, pursuant to ZVI-22-035, CALSTART administers the PowerForward Zero-Emission Vehicle Battery Manufacturing Grant Program (PowerForward) to solicit, select, and fund projects that will promote in-state battery manufacturing for zero-emission vehicles and related infrastructure; and

WHEREAS, on April 5, 2024, pursuant to ZVI-22-035, CALSTART issued the PowerForward grant solicitation, a competitive grant funding opportunity; and

WHEREAS, on August 13, 2025, CALSTART issued a Notice of Proposed Awards for PowerForward, which includes a proposed \$17,500,000 grant to Joby Aviation, Inc. (Joby) for the Joby Aviation Battery Manufacturing for Electric Aircraft (Project), a project to expand Joby's aviation battery manufacturing capability in San Carlos, CA and Marina, CA; and

WHEREAS, the City of San Carlos and the City of Marina (Cities) are the lead agencies under the California Environmental Quality Act (CEQA) for the Project; and

WHEREAS, the Cities reviewed the proposed Project and determined that it is exempt pursuant to CEQA Guidelines section 15301 for existing facilities because the work to be done will be tenant improvements to the inside of the buildings; and

WHEREAS, pursuant to ZVI-22-035, and as responsible agency under CEQA, CEC must make CEQA findings at a CEC Business Meeting before CALSTART may execute a grant agreement with Joby for the Project; and

WHEREAS, CEC staff has reviewed and considered the Cities' CEQA findings and other related CEQA documentation and has no information indicating the documentation is inadequate.

THEREFORE, BE IT RESOLVED, that the CEC adopts CEC staff's CEQA findings contained in the Agreement Request Form; and

FURTHER BE IT RESOLVED, that CALSTART may execute a grant agreement with Joby pursuant to the requirements of ZVI-22-035.

CERTIFICATION

**STATE ENERGY RESOURCES
CONSERVATION AND DEVELOPMENT COMMISSION**

RESOLUTION: Barona Group of the Capitan Grande Band of Mission Indians

RESOLVED, that the State Energy Resources Conservation and Development Commission (CEC) adopts the staff CEQA findings contained in the Agreement or Amendment Request Form (as applicable); and

RESOLVED, that the CEC approves amendment 1 to agreement ARV-24-008 for a novation changing the grant recipient from Barona Group of the Capitan Grande Band of Mission Indians to the Southern California Tribal Chairmen's Association. This \$3,000,000 grant will install two electric vehicle (EV) direct current (DC) fast charging ports and 84 Level 2 EV charging ports for community use at key facilities; perform charging infrastructure development and fleet transition planning for tribes in Southern California; and establish a workforce training program related to charging infrastructure; and

FURTHER BE IT RESOLVED, that the Executive Director or their designee shall execute the same on behalf of the CEC.

RESOLUTION: Regents of the University of California, on behalf of the San Diego campus

WHEREAS, that the State Energy Resources Conservation and Development Commission (CEC) previously approved agreement DBA-24-004 with the Regents of the University of California, on behalf of the San Diego campus (UCSD) on September 11, 2024 for a \$7,146,296 grant for the purchase, installation, and performance of a four-hour lithium-ion battery energy storage system with a nameplate capacity of 9.8 MW / 39.2 MWh located at the East Campus Utility Plant, and adopted CEC staff's recommended CEQA findings pertaining thereto;

WHEREAS, UCSD is now proposing to relocate the system to the UCSD Central Utilities Plant and reconfigure it with a nameplate capacity of 8.0 MW / 32.0 MWh; and

RESOLVED, that the State Energy Resources Conservation and Development Commission (CEC) adopts CEC staff's updated CEQA findings and recommendations contained in the Agreement or Amendment Request Form (as applicable); and

RESOLVED, that the CEC amends its approval of agreement DBA-24-004 with UCSD for \$7,146,296, to purchase, install, and report performance of a four-hour lithium-ion battery energy storage system with a nameplate capacity of 8.0 MW / 32.0 MWh. The system will be installed at the UCSD Central Utilities Plant and replace an existing two-hour lithium-ion battery system with a nameplate capacity of 2.5 MW / 5.0 MWh that is part of the existing microgrid and bulk grid power assets owned and operated by UCSD; and

RESOLVED, that this agreement will ensure the availability of the incremental capacity of the battery energy storage system during extreme events for a term of five years from the commercial online date of the battery energy storage system; and

FURTHER BE IT RESOLVED, that the Executive Director or their designee shall execute the same on behalf of the CEC.
