### **Docket number 24-OIR-03 - Energy Data Collection - Phase 3**

Dear Re: Docket 24-OIR-03 Docket Unit,

This new legislation is one more thing to track and deal with for a simple contractor who already is buried under all the existing legislation. I pay my taxes. I pay my insurance. I pay my workers insurance. It is very hard to deal with all the administrative things already. I don't know about the rest of the contractors out there but I am a non college graduate who works hard and complies with what I need to in order to provide quality work at an affordable price. Our industry has been hit with incredibly expensive changes converting everything from R410A to modern refrigerants. To add yet another thing when prices have already more than quadrupled seems unnecessary, even cruel. Give our customers and us a break. Let us do our job. This isn't a communist country. Thank You.

Sincerely,

Curtis Cassidy
