### **Docket number 24-OIR-03 - Energy Data Collection - Phase 3**

Dear Re: Docket 24-OIR-03 Docket Unit,

I have been and HVAC-R tech for 26 yrs and i am a contractor that owns my own HVAC company for the last 15 yrs her in California. This is more regulations, more paper work and more taxes period. The person that this hurts the most is the Home owner that is on a budget and needs heat for their family. With new fees and more labor on my end that extends from the Manufacture, distributor and contractor to the home owner paying more yet once again to get a new system put in their home. i am strongly against this! things are already so hard and too expensive don't make it worse. JR

Sincerely,

JR Stillman
