## HEEHRA Phase I Rebates for Single-Family Homes Fully Reserved

As of February 24, 2026, HEEHRA rebates for single family home retrofits in the Northern California region are fully reserved. With this notice, single family HEEHRA rebates are fully reserved statewide, and no new income verification requests are being accepted at this time. All submitted reservation requests for projects in the Northern California region that were not approved have been put on a waitlist in case additional funding becomes available. Reservations submitted after February 24, 2026, will also be put on the waitlist. Waitlisted projects are only eligible for a HEEHRA rebate if the heat pump is installed **after** the reservation is approved.

More information can be found on the TECH HEEHRA Program page: <https://techcleanca.com/incentives/heehrarebates>

Consumers who have questions about the status of their reservation request or rebate should contact their HEEHRA-trained and TECH-certified contractor or TECH Clean California at [TECH.info@energy-solution.com](mailto:TECH.info@energy-solution.com)

Updates about potential additional funding for this rebate program or future rebate programs will be posted to this docket.
