PUBLIC SUMMARY

Public Document

Applicant: Golden State Registry
(DBA of National Energy Testing Institute, Inc.)

Proceeding Name: 2025 Energy Code Compliance Provider Applications
Docket Number: 25-BSTD-01

Date: 3/2/2026

Public Summary — Exhibit T1 and Exhibit R2 Compliance Checklists

Golden State Registry (GSR) has submitted the following internal compliance cross-reference checklists in support of its 2025 ECC-Provider and Residential Data Registry Applications:

- **Exhibit T1 — ECC Rater Training Checklist (2025 Code)**
12 pages; Updated February 20, 2026
- **Exhibit R2 — Residential Data Registry Application Compliance Cross-Reference Checklist (2025 Code)**
21 pages; Updated February 20, 2026

These documents provide structured cross-referencing between Commission-supplied application checklists and GSR's submitted application materials. They identify where required regulatory elements are addressed within submitted exhibits and confirm conformance with applicable provisions of:

- Title 24, Part 1 and Part 6
- Section 10-109
- Section 10-103.3(d)
- Reference Joint Appendix JA7
- Data Registry Requirements Manual (DRRM)

The confidential versions contain detailed internal mapping references, proprietary workflow sequencing, system validation structure, internal governance alignment, and structured compliance methodology.

This public summary omits proprietary architectural mapping, internal implementation sequencing, and structural compliance logic.

The public interest is satisfied through:

- Full Commission access to confidential materials
- Submission of complete application narratives
- Provision of live registry access credentials for acceptance testing
- Demonstrated conformance through registered self-test projects
