

<b>DOCKETED</b>	
<b>Docket Number:</b>	24-OPT-03
<b>Project Title:</b>	Soda Mountain Solar
<b>TN #:</b>	268993
<b>Document Title:</b>	Clarification to TN # 268868
<b>Description:</b>	This information provides a figure clarification to TN # 268868, Applicant Response Letter to Staff Assessment, specifically Section 4.2. Implementation of a 0.62-mile buffer would place approximately 1,321 acres of the 2,670-acre project site into preservation status, with no development permitted. This represents an approximately 50% percent reduction in the developable footprint, which would reduce the project's solar energy generation capacity and battery energy storage capacity by nearly half.
