## **Energy Code or BEES**

Are the California jurisdictions required by the California Code of Regulations to enforce the 2025 BUILDING ENERGY EFFICIENCY STANDARDS, TITLE 24, PART 6 or the 2025 California Energy Code. In the past, there were minor differences. Are the two references identical? And if so, why are both documents published? Then there are the RESIDENTIAL AND NONRESIDENTIAL COMPLIANCE MANUALS that some plan checkers reference. Please let us all get on the same page.
