Subject: Filing of Notice of Decision in compliance with Public Resources Code section 21080.5 and Title 20, California Code of Regulations, section 1768

Project Name: Malburg Generating Station Project

Energy Commission Docket Number: 01-AFC-25C

Energy Commission Contact Person: Joseph Douglas **Phone #:** (916) 653-4677

Project Location: In the City of Vernon, in Los Angeles County, California

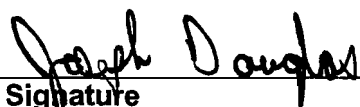

Project Description: The Malburg Generating Station, a 134-megawatt project, was certified by the Energy Commission on May 20, 2003, and began commercial operation on October 17, 2005.

Modification Description: A Petition to Amend was submitted by Bicent, L.L.C., to modify Air Quality Conditions of Certification **AQ-6** and **AQ-7**. These modifications are necessary to accommodate annual maintenance of the turbines, pursuant to South Coast Air Quality Management District Hearing Board requirements.

On February 18, 2014, the California Energy Commission approved the above-described project changes pursuant to a regulatory program certified by the California Secretary of Resources under section 21080.5 of the California Public Resources Code, finding that:

1. With mitigation, the project will not have a significant effect on the environment;
2. Mitigation measures were made conditions of approval of the project;
3. The project is in compliance with all laws, ordinances, regulations, and standards (LORS); and
4. A statement of Overriding Considerations was not adopted for the project.

The Commission docket files containing the final Commission Decision and other information regarding the project are open to the public at: California Energy Commission, 1516 9th Street, Sacramento, California, 95814.
