## **Concerns about a data center**

I'm extremely concerned about a proposed data center being built in my community. I'm concerned about the environmental impact on the animals as well as on the environment, including the plants and dust control. I'm also concerned about the effects it will have with light pollution, noise, pollution and accessibility disrupting our community. Our community was not notified and we are in a water dispute. This is extremely concerning, disheartening and feels very threatening to our community as individuals and as a community.
