Federal Financing Solutions for Inclusive Utility Investments – Senate Bill 1112 Draft Report CEC-300-2026-002-SD

The California Energy Commission (CEC) seeks public comment on the *Federal Financing Solutions for Inclusive Utility Investments – Senate Bill 1112 Draft Report* to inform the implementation of Senate Bill (SB) 1112 (Becker, Chapter 834, Statutes of 2022). Comments are due Monday, June 1, 2026 at 5:00 p.m.

The *Federal Financing Solutions for Inclusive Utility Investments – Senate Bill 1112 Draft Report* is available at docket [23-DECARB-02](#) at <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=23-DECARB-02>.

Background

SB 1112 directs the CEC to identify available state and federal financing and investment solutions that will enable electrical corporations, community choice aggregators, and other eligible entities to provide zero-emission, clean energy, or decarbonizing building upgrades consistent with the U.S. Environmental Protection Agency's inclusive utility investment policies. SB 1112 also directs the CEC to report to the Legislature any statutory changes necessary to improve access to federal funding for finance and investment solutions.

The *Federal Financing Solutions for Inclusive Utility Investments – Senate Bill 1112 Draft Report* provides an overview of inclusive utility investments, a financing mechanism that could accelerate and scale building decarbonization efforts in support of California's climate and energy goals. The report highlights potential federal financing and investment solutions that could help support inclusive utility investment as a source of third-party capital. These solutions include application strategies for different types of eligible entities to access federal financing.

Note that this report was directed and developed during a time with a different federal policy climate, and as such, some of the federal financing opportunities discussed have changed.
