## **Noise Pollution concern**

We, the people of Ridgecrest and Inyokern, do not want or need the diesel powered data plant proposed to be built in Inyokern. This plant will over-consume desert water, will pollute our beautiful desert air and our quality of life. I have heard reports previously where people have these near their homes and experience constant noise pollution from the high-frequency humming noise the servers make 24/7. The sound makes people ill because they cannot sleep or rest their mind. We do not want this please!
