CEC Docket 26-SPPE-01

I live in Inyokern and am writing to express concern about the proposed RB Inyokern Data Center currently under review under CEC Docket 26-SPPE-01.

I respectfully request a full environmental review with specific attention to water supply impacts, noise, heat island creation, valley electricity rates, health effects (especially on children as the Inyokern Elementary School is less than a mile away), and that any approval require demonstrated technology included in the design that eliminates these impacts on the local community before construction begins.
