California Energy Commission
Docket No. 25-RULE-01
715 P Street, MS-4
Sacramento, CA 95814

RE: Docket 25-RULE-01
Enchanted Rock, LLC. Comments on Notice of Proposed Action - Amendments to Definition of "Related Facility" and Addition of the Definition of "Appurtenant Facility"

Pursuant to the California Energy Commission ("CEC" or "Commission")'s March 20, 2026, *Notice of Proposed Action* in the above proceeding, Enchanted Rock LLC ("ERock") respectfully submits these comments to the Commission related to the definitional changes to "Related Facility" and the addition of "Appurtenant Facility" to the California Code of Regulations ("CCR"), Title 20, Section 1201. ERock supports the amendments proposed by the CEC and commends the Commission on their continued leadership.

I. Introduction

ERock is a leading manufacturer, developer, owner, and operator of ultra-low emission natural gas-fired microgrids, with over 1,000 MW of capacity commissioned across more than 400 sites nationwide, including 150MW at three sites in California. Our microgrids ensure reliable and resilient fast-start capacity across a variety of sectors, including large commercial and industrial customers, datacenters, critical infrastructure, and municipalities. By providing on-site, low-emission dispatchable capacity through our scalable microgrids, ERock ensures the continued operation of its customers, local regions, and their economies while contributing to grid capacity, emissions goals, and peak-demand reduction.

II. Comments

ERock supports of the CEC's definitional amendments to "Related Facility" and "Appurtenant Facility", which enhance regulatory clarity and streamline permitting processes. Aligning regulatory language within the existing statutory framework improves efficiency while modernizing regulatory definitions to reflect current industry demand.

III. Conclusion

ERock appreciates the Commission's leadership and supports the proposed amendments, noting that the changes provided enhance regulatory alignment and streamline permitting processes. ERock looks forward to continued collaboration to support California's evolving industry needs.

Respectfully,

Scott D. Lipton
Director of Policy, Western Region
