Mr. Drew Bohan
Executive Director
California Energy Commission
715 P Street
Sacramento, CA 95814

RE: City of San José's, administrator of San José Clean Energy, Load Management Standards Annual Report of Compliance Implementation

Dear Mr. Bohan,

In accordance with California Code of Regulations, Title 20, Section 1623.1(a)(3)(C) (20 CCR § 1623.1(a)(3)(C)), the City of San José, administrator of San José Clean Energy (SJCE), respectfully submits this Load Management Standards Annual Report of Compliance Plan Implementation to the California Energy Commission (CEC) Executive Director and to the CEC Docket Number 23-LMS-01.

SJCE's Annual Report describes SJCE's submission and maintenance of generation rates in the Market Informed Demand Automation Server, confirmation of Rate Identification Number on customers' billing statements, and SJCE's participation in the Hourly Flex Pricing pilot for residential and commercial customers.

Enclosed is SJCE's LMS Annual Report for CEC review. If you have any questions, or additional information is required, please contact Kayla Baum, Regulatory Compliance & Policy Specialist, at Kayla.Baum@sanjoseca.gov.

Sincerely,

Heather Dauler

Heather Dauler
Deputy Director
Regulatory Compliance and Policy
Energy Department, City of San José
Heather.Dauler@sanjoseca.gov

# San José Clean Energy Load Management Standards Annual Report of Compliance Plan Implementation

San José Clean Energy
200 E. Santa Clara St.
San José, CA 95113

May 8, 2026

# 1 Introduction

## 1.1 About SJCE

San José Clean Energy (SJCE) is a not-for-profit Community Choice Aggregator (CCA) administered by the City of San José's Energy Department. As a load serving entity, SJCE serves the City of San Jose, including over 350,000 residential and commercial accounts, representing nearly one million residents and 27,800 businesses. SJCE is governed by the San José City Council, comprised of eleven local elected officials, with input from a community advisory commission. The City Council has sole rate-setting authority with SJCE's rates discussed and approved at noticed, open public meetings.

## 1.2 Overview of Annual Report

Set forth in the California Code of Regulations, Title 20, Section 1623.1(a)(3)(C), each large CCA is required to submit to the California Energy Commission (CEC) an annual report demonstrating implementation of its approved compliance plan.

On March 19, 2024, the San José City Council approved SJCE's Load Management Standards Compliance Plan (LMS Compliance Plan). Following its approval by City Council, SJCE's LMS Compliance Plan was filed with the CEC to the 23-LMS-01 Docket on April 2, 2024. On March 28, 2025, SJCE filed a revised LMS Compliance Plan, which was subsequently approved at a CEC Business Meeting on May 8, 2025[1].

Pursuant to 20 CRR § 1623.1(a)(3)(C), this annual report describes SJCE's implementation progress since approval of its LMS Compliance Plan, including:

- Submission of time-dependent rates to the Market Informed Demand Automation Server (MIDAS)
- Availability of Rate Identification Numbers (RIN) on customer billing statements
- Participation in the development of a Single Statewide Tool
- Hourly marginal cost-based rate offering to residential and commercial customers through the Hourly Flex Pricing Pilot

Table 1 below provides an overview of SJCE's progress in advancing the requirements of the LMS.

[1] Signed Orders Approving LMS Compliance Plans for PG&E, SCE, SDG&E, VCE, SJCE, and PCE from the May 8, 2025 Business Meeting, available at https://efiling.energy.ca.gov/GetDocument.aspx?tn=263178&DocumentContentId=99777

Table 1: SJCE's LMS Progress

| LMS Section | Standard Description | Target Date | Status |
|---|---|---|---|
| § 1623.1(c) | Upload existing time-dependent rates to the MIDAS database. | July 1, 2023 | Completed |
| § 1623.1(a)(1) | Develop and submit to City Council for approval a plan describing how SJCE intends to meet the requirements of the LMS. | April 1, 2024 | Completed |
| §1623.1(a)(3)(A) | Within 30 days of adoption of the plan, submit the plan to the CEC's Executive Director. | 30 Days After City Council Adoption. | Completed |
| §1623(c) | Provide customer access to the Rate Identification Numbers (RIN) on billing statements and in online accounts using both text and QR code. | April 1, 2024 | Completed |
| §1623(c) | In conjunction with the other obligated LSEs, develop and submit a single statewide tool for authorized access by third parties and the terms and conditions for use of the tool. | May 8, 2029[2] | Completed |
| §1623(c) | Upon CEC approval of the single statewide tool, implement and maintain the tool. | Upon CEC Approval | Pending approval |
| §1623.1(b)(3) | Submit to the CEC a list of load flexibility programs deemed cost-effective by SJCE. | October 1, 2024 | Completed |
| §1623.1(a)(3)(C) | Submit annual reports to the CEC demonstrating the progress of implementation of the plan, as approved by City Council. | Annually | In progress |
| §1623.1(b)(2) | Submit at least one marginal cost-based rate to City Council for approval for any customer class(es) where such rate will materially reduce peak load. | July 1, 2025 | Completed |
| §1623.1(b)(4) | Offer each customer voluntary participation in either a marginal cost-based rate, if approved by City Council, | July 1, 2027 | Upcoming, completion expected by July 1, 2027 |

[2] Delayed to May 8, 2029 at March 12, 2026 CEC Business Meeting available at https://efiling.energy.ca.gov/GetDocument.aspx?tn=269300&DocumentContentId=106380

| | | | |
|---|---|---|---|
| | or a cost-effective load flexibility program. | | |
| §1623.1(b)(5) | Conduct a public information program to inform and educate customers on why marginal cost-based rates or load flexibility programs and automation are needed, and how these rates and programs can save customers money. | No Target Date Specified. | Ongoing |
| §1623.1(a)(1)(C) | Review the plan at least every three years and submit a plan update to City Council if there is a material change. | Once Every Three Years. | Upcoming, next review expected in March 2027 |

## 2 Time-Dependent Rate Submissions to MIDAS

Under Title 20, California Code of Regulations, section 1623.1(c), CCAs must upload all existing time-dependent rates to the Commission's MIDAS database and maintain all available time-dependent rates current by uploading as they are approved, prior to taking effect. SJCE, as a CCA, provides the generation rate component of customer rates.

SJCE continues to work with our back-office provider, Calpine, to facilitate the timely and accurate submission of time-dependent generation rates to the MIDAS database. Following the approval of rates by resolution of the San José City Council, SJCE provides Calpine with final rate sheets, typically no less than two weeks in advance of their effective date. Upon receipt, Calpine initiates the process to upload rates to MIDAS. The duration of the upload can extend over several days, as MIDAS continues to exhibit constrained and unpredictable performance. Calpine staff have reported experiencing significant system latency and instability during the upload process.

SJCE currently maintains generation rates and associated RINs in MIDAS, inclusive of rates that incorporate non-time-dependent modifiers. Between 2023 and 2026, SJCE completed a total of five uploads to MIDAS. SJCE's most recent upload was completed in March 2026. A comprehensive list of SJCE's currently available rates and corresponding RINs is provided in Attachment 1.

## 3 RINs on Customer Bills

SJCE customers receive their consolidated billing statements from Pacific Gas & Electric Company (PG&E). SJCE works with our back-office provider, Calpine, to provide SJCE's unbundled RINs for PG&E to include on customer billing materials. A redacted bill displaying SJCE's unbundled RIN via text and QR code is provided in Attachment 2.

## 4 Participation in the Development of a Single Statewide Tool

Section 1623(c)(1)-(2) of the LMS requires the applicable investor-owned utilities, publicly owned utilities, and CCAs to collaborate to develop and submit a single statewide standard tool for authorized rate data access by third parties, along with a set of terms and conditions of use for CEC approval by October 1, 2024.

Pursuant to the LMS requirements, the joint LSEs submitted a design proposal for the single statewide RIN tool[3] and terms and conditions[4] for the tool to the CEC on October 1, 2024. Since the submission of the joint LSE proposal, the Commission extended the §1623(c)(1)-(2) deadline to May 8, 2029[5]. Most recently, the Commission approved a new rulemaking to consider amendments to the LMS, including amending or replacing the single statewide tool[6].

SJCE welcomes the opportunities presented by this new rulemaking and looks forward to the further development of a framework for a cost-effective, standardized tool to enable and support load flexibility for all customers.

## 5 Implementation of Marginal Cost-Based Rates – HFP Pilot

SJCE continues to participate in PG&E's Hourly Flex Pricing (HFP) pilot, which provides residential and commercial customers the opportunity to voluntarily participate in hourly marginal cost-based rates with bill protections. Consistent with the requirements of California Public Utilities Commission (CPUC) Decision (D.) 24-01-032, SJCE filed a Tier 1 Advice Letter with the CPUC on December 18, 2024, formalizing its participation.

The HFP pilot allows eligible customers to opt in to hourly generation and distribution rates and receive credits for shifting usage in response to price signals. Customers are provided with hourly prices for the upcoming week and each day, allowing them to adjust usage accordingly. Enrolled customers continue to receive their regular bill under their otherwise applicable tariff, along with a performance report that shows customer performance on the HFP rate as compared to a subscription profile. Furthermore, the performance report bill displays how the customer is performing in responding to hourly price signals. Customers who outperform their subscription profile are eligible to receive on-bill credits calculated by their performance.

[4] Single Statewide Tool Joint LMS LSEs Terms and Conditions for 3rd Party Access (2024), available at https://efiling.energy.ca.gov/GetDocument.aspx?tn=259402&DocumentContentId=95487

[5] Signed Orders Approving LMS Compliance Plans for MCE and SCP, and Extension of RIN Tool Deadline from March 12, 2026 Business Meet, available at https://efiling.energy.ca.gov/GetDocument.aspx?tn=269300&DocumentContentId=106380

[6] Orders and Resolutions of the April 8, 2026 Business Meeting, available at https://efiling.energy.ca.gov/GetDocument.aspx?tn=269446&DocumentContentId=106537

Participants who do not outperform their subscription profile are not subject to penalties or additional charges.

SJCE customers began enrolling in the HFP pilot in April 2025. Currently, a total of 36 SJCE customers are enrolled in the HFP pilot, including 13 commercial customers and 23 residential customers. As customers complete a full year of participation, SJCE will begin to evaluate performance, verifying earned credits, and issuing on-bill credits to customers who have demonstrated load shifting as compared to their subscription profile.

SJCE has devoted substantial staff time and administrative resources to coordinate with PG&E and Calpine to support the implementation and administration of the pilot. While financial incentives for CCA participation were made available through D.24-01-032, customer enrollment quickly exceeded the incentive budget cap. In addition, delays in receiving customer performance data introduced uncertainty regarding the magnitude of customer credits to be issued. Taken together, these factors contributed to uncertainty about the overall cost of SJCE's participation in the pilot as well as the availability of external funding to offset unexpected costs.

While a degree of uncertainty and risk are inherent to pilot programs and may present practical constraints, SJCE views participation as a valuable opportunity to gain experience with dynamic rates. Participation in the HFP pilot presents SJCE with access to customer performance data and the ability to develop preliminary analysis on the effectiveness and potential for marginal cost-based hourly rates to drive load shifting within our service territory. SJCE looks forward to the preliminary analysis of the HFP pilot in a mid-term evaluation expected in August 2026, as well as to initial insights from our customers' first year of participation in the pilot.
