WE CAN NOT DRINK DATA!!!

I strongly oppose the data centers. They keep promoting them as job opportunities in reality is taking away our fresh drinking water. Data centers pollute the air, water, and eco systems around it. It poisons its surrounding areas causing health problems. What will you drink once the data centers use up all the water? **WE CAN NOT DRINK DATA!!!**
NO TO DATA CENTERS. Water is life!!! NO TO DATA CENTERS. NO TO CLIMATE DISASTERS. LANDBACK TO ITS ORGINAL STWEARDS.
