**RE: Letter of Support — RB Inyokern Data Center (CEC SPPE Docket No. 26-
SPPE-01)**

To Whom It May Concern,

On behalf of Sunrise Inn, a local lodging provider located in Inyokern, California, we are pleased to provide this letter in support of the proposed RB Inyokern Data Center project currently under review through the California Energy Commission SPPE process.

As a business operating within the local community, we recognize the positive economic impact this project may bring to Inyokern, Ridgecrest, and the surrounding Eastern Kern County region. Developments of this scale can create meaningful opportunities for local businesses through increased demand for lodging, hospitality services, dining, transportation, and support industries associated with construction, consulting, and long-term operations.

We believe responsible investment and economic diversification are important for the continued growth and sustainability of our community. The proposed data center represents an opportunity to attract new business activity, employment opportunities, infrastructure improvements, and additional economic stability to the area.

Sunrise Inn supports projects that contribute positively to the local economy while helping strengthen the long-term outlook for businesses and residents throughout the region.

Thank you for your consideration. Please feel free to contact our office directly should you require any additional information.

Sincerely,

A handwritten signature in black ink, appearing to read "C. M. G.", written in a cursive style.
