Protect our towns

We the people of Ridgecrest and Inyokern Ca are begging you to review the inyokern data center that you are considering. On so many levels, it will destroy our two little towns because of water use, and water contamination contamination, water, and soil pollution, noise, 24 seven an empty promises from the developer. Please take a huge long look at his proposal and find the holes in it that we all see. Please protect us, our children, and our senior citizens. Protect the Navy base that is here also. This is not a good!!!! it would be deadly
