No Data Centers

I am a home owner and tax paying citizen in the county and area where this data center is being proposed. I am strongly against it being built. It will effect the local environment and economy negatively. None of us in this area want to absorb the cost of this data center in any way. The 30-60 jobs this might create is seriously laughable, and an insult, considering the massive downsides of this proposal. I doubt our local government will listen to the lowly public, as we are simply peasant tax sources. No to the data center!!!
