No to InyoKern Data Center

Dear Energy Commission,

You have received hundreds of comment letters from many informed, educated, and concerned citizens of the endocrine Ridgecrest area and beyond. My comment is simple in comparison to many of those who have already commented

The simplest comment of concern I can give is that your water resource in that area is finite thus even if you do Build your data center in this location, it will fail and your investment will be lost. And then the interim youâ€™™ll have stolen the life blood of the environment, and of any people who live in the area.

Sincerely,
Ellen Schafhauser
