Our community would accept the Corby Project in an appropriate location such as Lambie Industrial Park Not on protected agricul

Our community isn't saying NO to BESS, it's saying No to Bess on Prime AG land. It's No to BESS using Lithium Ion batteries. Put it out at the Lambie Project and we won't fight it. But putting it near Agriculture and homes is not acceptable. Cobry is trying to go around the City and County requirements by going to you. They want what they want. Please send them to the Lambie Area.
