## **There is a mobile home park whose residents are all disabled adjacent to site**

The RB in yokern data center CANNOT be built at the proposed location. There is a mobile home park with 49 units that is strictly rented to DISABLED residents on SSI. They are medically sensitive, and low income, and there is no other alternative low income housing in the area for them to relocate to. The application accounts for the school and the senior center but makes no mention whatsoever of the disabled residents that would be DIRECTLY ADJACENT to the data center. THE Most, is not all, of the residents do not even know about this project, they have not been notified by the developer and the effects on these medically sensitive citizens has not been accounted for our considered. The park is owned by pinyon Park LLC who has not responded to requests for discussion by myself and other concerned citizens about how these residents will be protected.

I respectfully insist that a moratorium be placed on any approval for moving forward on this project until such time as this issue is taken into consideration. This is in addition to the other water issues and light, noise and air pollution. The developer has shown no consideration for the residents that will be directly and substantially affected.  
Thank you
