Inyokern Data Centers

Iâ€™m very concerned about these data centers that are coming in without any studies being done! We are under a GA that hasnâ€™t concluded! Where will they dump that corrosive forever chemical water? How much will they drain from the citizens here! The light, air and noise pollution! Does NAWCWD give a care about the peopleâ€™s lives that work there? They told us NOTHING! This country has become abusive to its citizens and we are tired! Tired and angry!

Then when those data centers start controlling our entire lives will the fun begin if you donâ€™t make this happen properly!
