You have got to be kidding !

This project will wipe out our aquifer and our power supply ! And for what ? More data ? More ways to profile and exploit working Americans ? If our officials can't protect our citizens from harm -how long do you think it will take before they are forced to protect themselves. Is that the gamble you are willing to take ? Do you really want to push things that far ? If there is one thing that will bring the right and the left together it is this sort of abuse. Then the elites will lose their most valuable tool--division ! This crap is just plain wrong !
