From: **Frederick Hochberg**

Date: May 29, 2026

Subject: Request to Open New Docket for Land Use and Environmental Information for Energy Planning (26-LUEP-01)

This memo requests a new docket be opened for the California Energy Commission (CEC). A new docket is necessary for CEC's upcoming land use work, which comprises a wide variety of topics including land use screens, reports on potential land use impacts of high renewable build, and a study of the potential of the built environment for renewable energy. There is no single existing docket for this land use work at CEC, and we propose this one be used for land-use related items going forward.

The new docket number will be **26-LUEP-01** and should be titled **Land Use and Environmental Information for Energy Planning**. Please include the following individuals in the internal distribution list and notify them once the docket has been opened:
