Staff Draft Report*
CEC-700-2026-030-SD /Docket # 24-RPS-01**

The *Renewables Portfolio Standard 2021-2024 Retail Sellers Procurement Verification Results Staff Draft Report* is available from the California Energy Commission's (CEC) website at:

http://www.energy.ca.gov/portfolio/documents/rps_verification.html

The *Renewables Portfolio Standard 2021-2024 Retail Sellers Procurement Verification Results Staff Draft Report* provides the preliminary results of CEC staff's verification of renewable energy procurement claims submitted by retail sellers for Compliance Period 4 (CP 4), 2021-2024 of the Renewables Portfolio Standard (RPS). The *Renewables Portfolio Standard 2021-2024 Retail Sellers Procurement Verification Results Staff Draft Report* can be found on the CEC website at the link above.

The CEC will consider adopting this version of the *Renewables Portfolio Standard 2021-2024 Retail Sellers Procurement Verification Results Staff Draft Report* at the business meeting on:

Monday, June 22, 2026
10:00 a.m.
Remote Access or In-Person

California Natural Resources Agency Building
715 P Street
Auditorium Room
Sacramento, California 95814
(Wheelchair Accessible)

More information about the June 22, 2026, business meeting, including the full agenda and instructions for participation, is available on the CEC's website at <https://www.energy.ca.gov/proceedings/business-meetings>.

As part of its administrative responsibility, the CEC verifies the RPS procurement claims of both retail sellers and local publicly owned electric utilities (POU). The methods used by the CEC to verify procurement claims for RPS program participants is generally described in the *Renewables Portfolio Standard Eligibility Guidebook*, (*RPS Eligibility Guidebook*), and further detailed in the *Renewables Portfolio Standard Verification Methodology Report, Fourth Edition* (Methodology Report). [Both documents](#) can be found at http://www.energy.ca.gov/portfolio/documents/rps_verification.html.

As stated, this report applies to retail sellers, which includes three large investor-owned utilities (IOU), three small and multijurisdictional utilities (SMJU), 17 electric service providers (ESP), and 27 community choice aggregators (CCA). The summary results included in the *Renewables Portfolio Standard 2021-2024 Retail Sellers Procurement Verification Results Staff Draft Report* provide the following information for the 43 California retail sellers that reported procurement claims for CP 4:

- Total RPS claims reported (2021-2024).
- Ineligible claims, distinguished by the reason for the ineligible finding.
- Withdrawn claims.
- Claims eligible toward the RPS.

The report also provides an analysis of the total eligible procurement claims by resource type and includes each individual retail seller's Summary Claims Report.

The California Public Utilities Commission (CPUC) will utilize this report for compliance and enforcement activities involving retail sellers. As noted above, the results contained in this report will be considered final by the CEC once adopted. Accordingly, retail sellers should take care to review this report closely prior to adoption and identify any errors or requested corrections to the report not previously identified.

Stakeholders and the public have an opportunity to review and provide comments on this staff draft report. Staff will consider comments, and a final version of the *Renewables Portfolio Standard 2021-2024 Retail Sellers Procurement Verification Results Staff Draft Report* will be posted to the CEC's website and the CP 4 docket (24-RPS-01) once adopted and finalized by the CEC. Once adopted by the CEC, the report will be transmitted to the CPUC.

Background

The enactment of Senate Bill (SB) 1078 (Sher, Chapter 516, Statutes of 2002) in September 2002 created California's RPS program. California's RPS establishes increasingly progressive renewable energy procurement targets for the state's load-serving entities (LSEs). Originally applicable only to retail sellers, the statewide mandatory RPS was expanded by SB X1-2 (Simitian, Chapter 1, Statutes of 2011, First

Extraordinary Session) to include POUs starting in 2011. SB 100 (De León, Chapter 312, Statutes of 2018) increased the procurement targets, requiring both retail sellers and POUs to increase their procurement of eligible renewable energy resources to 60 percent of retail sales by 2030.

California's RPS is jointly administered and implemented by the CEC and the CPUC. As part of its responsibilities, the CEC is directed to (1) certify eligible renewable energy resources, (2) verify the eligibility of renewable energy procured by LSEs, (3) design and implement an accounting system to track and report renewable energy procurement for all program participants, and (4) oversee compliance and enforcement of the POUs. The CPUC is responsible for the RPS compliance and enforcement for retail sellers.

Oral comments

The CEC will accept oral comments during the business meeting at which this item is heard for approval. Comments may be limited to two minutes per speaker. All comments will become part of the public record in this proceeding.
