Dear CEC:

I have been a resident of Indian Wells Valley since 1959. I am currently an active psychotherapist in private practice, and have been for the past 40 years. As such, I am very familiar with everything related to the valley. including resident's mental health, recreational activities in the area, local politics, the Naval Weapons Center, schools, environmental sensitivities, and just about everything else. This project is the most beneficial to the community I have seen considered to date. Extremely low environmental impact, positive addition to the tax base, extremely small footprint, and an extremely valuable public utility. It has my 100% endorsement. I see zero downside.

Sincerely,

Tom Martin, Ph.D.
