Dear Ms. Longman,

As requested, the Military Aviation and Installation Assurance Siting Clearinghouse coordinated within the Department of War (DoW) an informal review of the Corby Project - CEC review. The results of our review indicated that the energy storage project, located in Solano County, CA, as proposed, will have minimal impact on military operations conducted in the area. However, any subsequent changes will require an additional review by the DoW.

Please note that this informal review by the DoW Military Aviation and Installation Assurance Siting Clearinghouse does not constitute an action under 49 United States Code Section 44718. Moreover, the DoW is not bound by the conclusion arrived at under this informal review. To expedite our review in the Obstruction Evaluation Airport Airspace Analysis (OE/AAA) process, please add the project number (2026-3-ES-SG-23) in the comments section of the filing. If you have any questions, please contact me at [robbin.e.beard.civ@mail.mil](mailto:robbin.e.beard.civ@mail.mil).

Sincerely,

Robbin Beard  
Executive Director
