## **Opposition Remark**

I am adding my comment to OPPOSE completely the building of the RB Inyokern data center. I live less than 2 miles away from the proposed site and manage a private community water company and we CANNOT sustain 50 acre feet of water use this close to our property. I also cannot tolerate the noise pollution as I am a military veteran with hearing loss and tinnitus. Our community and its members DO NOT need a data center and it will not provide the benefits that R&L Capital believe it will. This is an investment for return project that will destroy our local landscape and create hardships for our air and water which we heavily rely on here in the dry desert. OPPOSE AT ALL COSTS. Please submit to my country supervisor for review.
