Support for RB Inyokern Data Center  
Docket No. 26-SPPE-01

Dear Chair and Commissioners:

My name is Christopher Weber. I am an apprentice electrician and proud member of IBEW Local 428. I have worked in the construction industry for 4 years and I live in Bakersfield, CA.

I am writing in support of the RB Inyokern Data Center Project.

Data centers are the infrastructure of the 21<sup>st</sup> century. Every time someone uses their phone, streams a movie, or asks an AI question, that data lives in a facility like this one. California should be building these projects with union labor, prevailing wages, and environmental review - not pushing them to states with no labor standards and no environmental protections.

I respectfully urge the Commission to approve this SPPE application. This project is good for workers, Kern County, and California.

Respectfully,
