Support for RB Inyokern Data Center - Docket No. 26 SPPE-01

Dear Chair and Commissioners:

My name is Myles Muir. I am an apprentice electrician and proud member of IBEW Local 428. I have worked in the construction industry for 3 years, and I currently reside in Bakersfield, CA. I am writing in support of the RB Inyokern Data Center project.

As an electrician in Kern County, I've found that local work that pays well is not always easy to find. The Inyokern project would put hundreds of construction workers on-site at union scale - averaging about 300 workers, and peaking near 600 over 4 years. This is work that will keep food on the table and pay into our pensions. Additionally, this will train the next generation of skilled workers through apprenticeship programs. Projects like this are how we build and reinforce the middle class.

I respectfully urge the Commission to approve this SPPE application. This project is good for workers, good for Kern County, and good for California.

Sincerely,

Myles Muir
Apprentice Electrician, IBEW Local 428
Bakersfield, CA 93311
