Support for the Southern California Energy Innovation Network (SCEIN)

My name is Robin Ihnfeldt and I am the founder/CEO of General Engineering & Research. We are an energy startup that has directly benefited from Cleantech San Diego's Southern California Energy Innovation Network (SCEIN). In addition to the proven ROI of SCEIN, my company has directly benefited from SCEIN which has provided connections to utilities, investors, government agencies, labor, and academia, and has served as a critical local 'on-ramp' helping to bring our energy innovation from the research and development stage into the market to create a more efficient and thriving clean energy economy.
