The CEC will host a workshop to provide an update on its commitment to embed equity and environmental justice in its policies, programs, and activities, as described in recommendations included in the *2022 Integrated Energy Policy Report (IEPR) Update* and the *draft Justice, Access, Equity, Diversity, and Inclusion (JAEDI) Framework*.

This workshop is part of the *2026 IEPR Update* proceeding (Docket No. 26-IEPR-05). Chair David Hochschild is the CEC's lead commissioner for the *2026 IEPR Update*. Commissioner Noemí Gallardo is associate member for the topics of California geothermal resources and energy equity and environmental justice.

The CEC aims to begin promptly at the start time posted, and the end time is an estimate based on the proposed agenda. The workshop may end sooner or later than the posted end time. The public can participate in the workshop consistent with the attendance instructions below.

Agenda

The workshop will start with a presentation covering updates on the equity and environmental justice recommendations outlined in the *2022 IEPR Update*. These updates will be followed by a set of presentations that will highlight the CEC's Energy Equity Indicators and environmental justice organizations' experience with energy equity metrics. Panelists will also provide feedback on the development and next steps for the Energy Equity Indicators. A second panel will outline CEC's

labor and workforce development efforts since the *2022 IEPR Update*. Panelists will provide insights into what additional labor and workforce development capacity the CEC needs. There will be opportunities for questions and answers from the public after each panel.

A detailed meeting schedule will be posted prior to the workshop at [2026 IEPR Workshops, Notices, and Documents](https://www.energy.ca.gov/data-reports/reports/integrated-energy-policy-report-iepr/2026-integrated-energy-policy-report/2026), <https://www.energy.ca.gov/data-reports/reports/integrated-energy-policy-report-iepr/2026-integrated-energy-policy-report/2026>. Notices, schedules, and materials related to the workshop will be posted in Docket No. 26-IEPR-05.

Background

Public Resources Code Section 25301 requires the CEC to prepare an Integrated Energy Policy Report (IEPR) every two years that includes assessments and forecasts of all aspects of energy industry supply, production, transportation, delivery and distribution, demand, and prices. On alternate years, such as 2026, the CEC updates the statewide forecast of electricity demand and also provides assessments of select energy issues. This workshop is part of the update for alternate years.

The *2026 IEPR Update* will include a focus on the CEC's continued efforts to embed equity and environmental justice in its policies, programs, and initiatives. More information can be found in the [Scoping Order for the 2026 IEPR Update](https://efiling.energy.ca.gov/GetDocument.aspx?tn=269519&DocumentContentId=106609), <https://efiling.energy.ca.gov/GetDocument.aspx?tn=269519&DocumentContentId=106609>, and in Docket No. 26-IEPR-05.
