**Application for Confidential Designation
IP Perkins, LLC, IP Perkins BAAH, LLC c/o Intersect Power, LLC
Docket No. 24-OPT-01**

Dear Michael Johnson:

The California Energy Commission (CEC) has received IP Perkins, LLC, IP Perkins BAAH, LLC c/o Intersect Power, LLC's (applicant) Application for Confidentiality (TN 269875) docketed May 7, 2026, covering the following documents:

- A Class III Cultural Resources Survey for the Western Area Power Administration Drop 4- Knob Transmission Line, Imperial County, California (151 Pages)
- DPR 523 Form for P-13-007130 (134 Pages)
- DPR 523 Form for P-13-011261 (9 Pages)

The applicant states that the documents listed above are confirmations and additions to the originally submitted CRTR. The originally submitted CRTR was granted confidentiality by the CEC in a letter dated May 7, 2025 (TN 262988). The applicant requests confidentiality for the documents listed above in their entirety at the request of the U.S. Bureau of Land Management (BLM) to protect potential cultural resources and sites. The applicant asserts that if the descriptions of the locations of the sites are released to the public domain, there is potential for looting and destruction of that site.

Confidentiality Claims

A properly filed application for confidentiality shall be granted under California Code of Regulations, title 20, section 2505(a)(3)(A), "if the applicant makes a reasonable claim that the Public Records Act or other provision of law authorizes the [California Energy] Commission to keep the record confidential."

The California Public Records Act provides for the nondisclosure of archaeological site information and records of Native American places, features, and objects and reports maintained by, or in the possession of, the Department of Parks and Recreation, the State Historical Resources Commission, the State Lands Commission, the Native American Heritage Commission, another state agency, or a local agency. (Gov. Code,

§§ 7927.000, 7927.005.) The California Public Records Act also recognizes the confidentiality principles of federal law. (Gov. Code § 7927.705.)

The Archaeological Resources Protection Act establishes a clear, national legal policy that all types of archaeological, paleontological, and cultural resource site locations on public lands must be protected to preserve them. (54 U.S.C. § 306131.)

The California Government Code section 7922.000 provides that an agency may withhold information from disclosure where the public interest served by nondisclosure clearly outweighs the public interest of disclosure.

Executive Director's Determination

The applicant has made a reasonable showing that the cultural resource information contained in the documents listed above should be maintained as confidential indefinitely.

Be advised that persons may petition to inspect or copy records that have been designated as confidential, the executive director may disclose or release records previously designated as confidential in certain circumstances, and the CEC may hold a hearing to determine the confidentiality of its records on its own motion or on a motion by CEC staff. The procedures and criteria for disclosing or releasing, filing, reviewing, and acting upon such petitions or motions are set forth in the California Code of Regulations, title 20, sections 2506 through 2508.

Any related subsequent submittals can be deemed confidential, without the need for an application, by following the procedures set forth in California Code of Regulations, title 20, section 2505(a)(4).

If you have questions, please email confidentialityapplication@energy.ca.gov.

Sincerely,

Drew Bohan
Executive Director
