## **Fire evacuation & health issues**

There will always be a concern or potential for an adverse occurrence. For us seniors citizens, we have health issues, decreased mobility, resources for potential evacuation support, sustainable life maintaining in case an emergency arises, be it the facility, weather, hazards, negligence or threats. Is there a procedural guide, assistance in place? It would be good & reassuring to have a manual or procedural handbook on hand. We are rural, have dirt roads, hills with somewhat narrow lanes. Thank you for having us share our community concerns. God Bless.
