Increased Fire Risk

To whom it may concern,

I am writing to comment on the proposed BESS facility in Acton. We are already scrutinized by the fire department and CAL Fire because of the extreme fire risk our community is said to have. We cannot obtain fire insurance and some people cannot get any kind of homeowners insurance. We are already at risk of losing everything. Everyone works so hard to live in a rural community that is constantly under attack by outside city sources. Just because we aren't in the middle of a congested city and it doesn't affect those that live there, our community gets treated like BFE and anything goes here. There is plenty of property in the desert that wouldn't risk people homes and lives. Put these facilities in the middle of no where and Keep them away from us.

Sincerely,
Elisa Stern Mortimer
