No BESS in Acton

I am a longtime resident in Acton. I choose to live here and have worked hard to build and maintain my ranch and home because it is rural and allows me to live my passion which is rescuing animals both large and small. Your proposed BESS site is less than a mile from my property. This is a rural very high fire risk area and no industrial project belongs anywhere near the town of Acton. This proposes risk to all Acton residents and their animals and livestock from air, ground and water pollution, when a fire event occurs at this BESS. These BESS are not safe to be as close to any residence or homes as this proposed site. Please look elsewhere that is not a high fire hazard zone and is not anywhere near any residential area. In addition property values will plummet and insurance rates will sky rocket, causing undue financial hardship to residents. Myself and my family are in strong OPPOSITION to the Prairie Song BESS in Acton.
