Battery storage Vacaville

Good afternoon,

I am writing to express my extreme concern and opposition for any battery storage located in and around the Vacaville area. We have fought hard to keep this area safe and that would be a powder keg ready to go at any time, just think what happened at Esparto it would not be anything compared to what would happen here should an incident occur. If you have not had a chance to come to some of our meetings I would urge you to as there is extreme opposition from the majority of people and in the surrounding areas as this type of facility and what inventory it would hold as just asking for a state of emergency incident.

Thank you very much for your time and consideration!

Christian Billings
