No data center

My name is Stacy Weems and I am very concerned about the noise the lights I live in the boondocks for a reason I don't live in the city where there's lights. In the waterways that comes off of the data center is soiled and I don't like it. I don't wanna have to deal with it. I think the data center is not a good idea for our Valley. It's too hot. We live in a bowl. The fumes from the diesel generators would not go anywhere they would sit here and poison our Valley. I definitely wouldn't want it next to a school. We children are gonna have to deal with the heat, the vibration, the noise yes people get used to it, but should you have to no. If you choose to move somewhere like Trona , where you have to hear that. That's fine. That's your choice. You chose to move there.
