CEC-057 (Revised 3/26)

Notice of Availability of Local Publicly Owned Electric Utilities Renewables Portfolio Standard Compliance Period 4 (2021-2024) Verification Results Reports – Group 1 Docket No. 24-RPS-01

The California Energy Commission (CEC) adopted the initial group (Group 1) of *Renewables Portfolio Standard 2021-2024 Verification Results Reports for Local Publicly Owned Electric Utilities* (*Verification Results Reports*) for 25 local publicly owned electric utilities (POUs) at its May 13, 2026, Business Meeting.¹

These finalized *Verification Results Reports* provide the results of renewable energy procurement claims submitted by POUs for the Renewables Portfolio Standard (RPS) Compliance Period 4 (CP 4), covering the years 2021-2024. The *Verification Results Reports* are available on the CEC [website](https://www.energy.ca.gov/programs-and-topics/programs/renewables-portfolio-standard/renewables-portfolio-standard/renewables) at <https://www.energy.ca.gov/programs-and-topics/programs/renewables-portfolio-standard/renewables-portfolio-standard/renewables>.

The *Enforcement Procedures for the Renewables Portfolio Standard for Local Publicly Owned Electric Utilities* establish the rules and procedures by which the CEC assesses a POU's compliance with RPS procurement requirements.² The methods used by the CEC to verify procurement claims for RPS program participants are generally described in the *Renewables Portfolio Standard Eligibility Guidebook*, and further explained in the *Renewables Portfolio Standard Verification Methodology Report, Fourth Edition*. These [documents](https://www.energy.ca.gov/programs-and-topics/programs/renewables-portfolio-standard/renewables-portfolio-standard) can be found at <https://www.energy.ca.gov/programs-and-topics/programs/renewables-portfolio-standard/renewables-portfolio-standard>.

¹ The remaining 18 RPS POU Verification Results Reports will be considered for adoption at a future business meeting(s).

² The [Enforcement Procedures for the Renewables Portfolio Standard for Local Publicly Owned Electric Utilities](https://www.energy.ca.gov/programs-and-topics/programs/renewables-portfolio-standard/renewables-portfolio-standard) regulations are set forth in 20 CCR §§ 1240 and 3200–3208. Available at <https://www.energy.ca.gov/media/6111>.

The verification results included in the *Verification Results Reports* provide the following information, as applicable, for Group 1 of POU's that reported procurement claims for CP 4:

- The POU's procurement target and portfolio balance requirements and limitations.
- The amount of eligible renewable energy credits (RECs) retired, and the amount applied to meet the compliance period requirements, both shown by Portfolio Content Category classification and Long-Term Procurement Requirement classification, as applicable.
- Any deficits in meeting RPS procurement requirements for the compliance period.
- Any optional compliance measures being applied by the POU for the compliance period.
- A calculation of excess procurement accumulated in this compliance period.
- A summary of the POU's excess procurement and historic carryover, if any, including any prior balance, the amount accumulated and used in the current compliance period, and remaining balance.
