PETITION TO CHANGE OPERATOR of the GWF HANFORD EMERGENCY PEAKER POWER PLANT (01-EP-7C)

On March 21, 2014, GWF Energy LLC (GWF) filed a petition with the California Energy Commission (Energy Commission) requesting approval to transfer the operational control of the GWF Hanford Emergency Peaker Power Plant (Hanford) project, from GWF Energy, LLC to Star West Generation Management Company. The simple-cycle, electricity-generating, 95-megawatt facility was certified by the Energy Commission in its Decision on April 26, 2010, and began commercial operation on September 2, 2001. The facility is located at the intersection of Idaho Avenue and Power Way in an industrial area of the City of Hanford in Kings County.

ENERGY COMMISSION REVIEW PROCEDURES

The statement affirms that the new operator agrees to be bound by the requirements of the Energy Commission's Decision for the project and understands the obligations imposed by the Conditions of Certification. Based on the information provided, staff intends to recommend the proposed change be approved by the Energy Commission at the June 18, 2014 Business Meeting.

The petition has been docketed on the Energy Commission's Hanford project webpage at <http://www.energy.ca.gov/sitingcases/peakers/hanford/>. The Commission's Order, if approved, will also be docketed.
